

International Concurrent Workshop Clinical 4

Organ complications

Day 1 April 21, 16:20 - 17:30 Room 4

Chair: Motohisa Yamamoto

Department of Gastroenterology, Rheumatology and Clinical Immunology, Sapporo Medical University School of Medicine, Japan

ICW-C4-1 Withdrawn

ICW-C4-2 Distinct clinical features distinguishing IgG4-related disease and multicentric Castlesman's disease

Takanori Sasaki

Division of Rheumatology, Department of Internal Medicine, Keio University School of Medicine, Tokyo, Japan

ICW-C4-3 Cardiac Magnetic Resonance Imaging Reveals Myocardial Fibrosis and Inflammation in Dermatomyositis/Polymyositis Without Cardiac Manifestation; A pilot study

Atsuma Nishiwaki

Division of Hematology and Rheumatology, Nihon University School of Medicine, Tokyo, Japan

ICW-C4-4 The relevance of inflammatory cytokines to ILD (Interstitial lung disease) with acute respiratory failure in CTD (Connective tissue disease)

Yuichi Ishikawa

The First Department of Internal Medicine, University of Occupational and Environmental Health, Japan

ICW-C4-5 The analysis of risk factors for infection in patients with inflammatory myopathies complicated with interstitial lung disease

Yumiko Sugiyama

Department of Internal Medicine and Clinical Immunology, Yokohama City University Graduate School of Medicine, Yokohama, Japan / Y-CURD Study Group

ICW-C4-6 Primary prophylaxis for pneumocystis pneumonia(PCP) by Sulfamethoxazole/Trimethoprim (ST) under immunosuppressive therapy in patients with systemic autoimmune diseases

Hiroko Yoshinari

The 1st Department of Internal Medicine, University of Occupational and Environmental Health, Japan

ICW-C4-7 Comparison of the efficacy and safety of low dose trimethoprim/sulfamethoxazole (SMX/TMP) therapy with high dose SMX/TMP therapy in connective tissue disease with Pneumocystis pneumonia (PCP); A retrospective multicenter study

Shinichiro Omura

Nagoya City University Hospital, Japan
