

International Concurrent Workshop Clinical 6

Clinical immunology

Day 2 April 22, 9:15 - 10:15 Room 4

Chair: Koichiro Ohmura

Department of Rheumatology and Clinical Immunology, Kyoto University Graduate School of Medicine, Japan

ICW-C6-1 The importance of Syk and Btk in B cell in patients with Systemic Lupus Erythematosus

Shigeru Iwata

The First Department of Internal Medicine, University of Occupational and Environmental Health, Kitakyushu, Japan

ICW-C6-2 Negative correlation between miR-326 and Ets-1 of regulatory T cells in new-onset patients with systemic lupus erythematosus

Xiaoge Sun

Department of Rheumatology and Immunology, Anhui Provincial Hospital Affiliated to Anhui Medical University, Hefei, China

ICW-C6-3 Evaluation of Soluble α -Klotho in Neuropsychiatric Systemic Lupus Erythematosus

Kunihiro Ichinose

Department of Immunology and Rheumatology, Nagasaki University Graduate School of Biomedical Sciences, Japan

ICW-C6-4 Combination of anti-beta2-glycoprotein I domain I and phosphatidylserine-dependent antiprothrombin antibodies may be a candidate of effective screening tests for diagnosis of antiphospholipid syndrome

Hiroyuki Nakamura

Division of Rheumatology, Endocrinology and Nephrology, Hokkaido University Graduate School of Medicine, Sapporo, Japan

ICW-C6-5 Clinical and immunological consequences of Total Glucosides of Paeony treatment in Sjögren's syndrome: A randomized controlled trial

Yingbo Zhou

Department of Rheumatology and Immunology, Affiliated Anhui Provincial Hospital, Anhui Medical University, Hefei, China

ICW-C6-6 Characteristic phenotype of peripheral blood lymphocytes in patients with IgG4-related disease

Satoshi Kubo

The First Department of Internal Medicine, University of Occupational and Environmental Health, Japan
